DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed 4/20/06 has been entered.

The amendment filed 4/20/06 which amends claims 1-2 has been entered. The following Office action is applied to pending claims 1-11.

The references cited in the IDS filed 4/20/06 and the IDS filed 3/24/06 have been considered by Examiner.

Claims 1-11 are allowed.

The following is an **Examiner's Statement of Reasons for Allowance**: In light of that (i) applicants have amended the claims by reciting the biological function(s) for the claimed glucagon-like peptide 1 (GLP-1) or the fragment thereof (see the amendment filed 12/16/04); and (ii) in the response filed 12/16/04, applicants state that the specification, as whole, has taught treatment of cardiac muscle which is used as an example for the description and reasoning applied to extending the result obtained from the treatment of cardiac muscle ischemia to treatment of a skeletal muscle (disorder) condition, e.g., intermittent claudication, the rejections (written description and scope enablement) under 35 USC, first paragraph set forth in the Office action mailed 8/25/04 are withdrawn. Therefore, claims 1-11 are allowed.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
